## Price Relief 2021

Due to the economic strain put on our parents and schools, we have decided not to increase the workbook prices for 2021.

The early bird discounts from as much as 20% for payment by end of May 2020 still apply. Discounts are rewarded up until the end of September. Payment plans are also available.

In order to Give Back to our EMS educators, we give R5 PER workbook in the form of a voucher of your school's choice. The voucher is given with the hope of improving our educators' teaching environment. Please email Wade on [wade@wamark.co.za](mailto:wade@wamark.co.za) for our latest order form and payment options.

## Purchasing through a bookshop for 2021

If you decide to use our workbooks and learners purchase their own workbooks through a bookshop, kindly inform us in writing by the 15th of September 2020.

## Late orders

Orders need to be placed for our bulk printing run which is done overseas, by the 15<sup>th</sup> of September 2020. Orders placed after the 15th are welcome, however local printing prices will be charged which are considerably higher.

## Educator Guides

Educator guides are only available to our schools which have ordered for the full grade, FREE of charge.
